2.2.3- Institution facilitates building and sustenance of innate talent /aptitude of individual students (extramural activities/beyond the classroom activities such as student clubs, cultural societies, etc)

Our college admits students from different diversities. All our students are given the opportunity to come forward with their interests, skills and talents apart from the field of dentistry. Our institution has excellent indoor & outdoor sports facilities and an auditorium available which our students can access freely to practice and develop their extra- curricular skills. Their leadership skills and team building skills dare also honed through the formation of a student council and 11 student clubs. This in turn closely interacts with the other committees and college administration and organizes the events for the year.

Students are advised to practice Yoga and yoga sessions are conducted regularly in the campus by internal and external experts. Our students also benefit from the expertise of the personnel from the Physical Education Department of our institution. Active participation for the awareness days takes place and they are allowed to showcase their scientific knowledge in the form of innovative skits, short films and posters in order to reach the community.

The various activities that had taken place during the assessment period (2022- 2023) have been documented.

PRINCIPAL

**INTERNATIONAL YOGA
DAY CELEBRATION
ORGANIZED BY: YOGA CLUB**
